How Do We Know Students Are Learning What We Teach?

- Evaluating what students know and are able to do takes place every day in our classrooms.
 - Classroom assignments
 - Local Assessments
 - Quizzes
 - Tests
 - Individual or group projects
 - Teacher observation
 - Report cards & PEPs
- Statewide tests are another measure of student learning that is consistent from school to school.

Information from Multiple Assessments Is Used to Improve Teaching and Learning

- Information from all the different types of assessments listed on the previous slide provides powerful information for teachers.
- Teachers have the information they need to:
 - Plan lessons that best meet the needs of their students.
 - Identify where students may need help.
 - Decide if students should be placed in special programs.

CAASPP Assessments

- Designed to help improve teaching and learning.
 - Provides information about student learning in the year the test is taken.
 - Identifies areas of support students may need in the following year.
- Measures student learning of the standards and grade level expectations in each tested subject.
- Students use a computer to complete the test.

Understanding Student Score Reports

How You Can Help Support Your Child's Success

- Monitor your child's completion and performance on homework, classroom assignments, quizzes and tests.
- Talk to your child's teacher regularly about his or her progress.
- Ask your child's teacher:
 - Where is my child doing well?
 - Where might my child need some extra support?
 - How can I help support my child at home to make sure he/she is successful?

How You Can Help Support Your Child's Success, continued

- Read with your child daily (younger children) and make sure they have a quiet place for doing their homework (older children).
- Make sure your child knows the test is only one way that their teacher gets information about what they know and that they should try their best because the tests are important.

How Can I Learn More About the Tests My Child is Taking?
